# CUSTOM INTERIOR DESIGN

**We want your apartment to reflect a stylish, unique home. That's why our own interior designers have created several different interior concepts specifically for Metrodom apartments, so you can draw inspiration from them.**

As part of a special collaboration, we invited Lili Pataki, one of today's most sought-after interior designers, to create truly unique and stylish visual designs tailored to Metrodom apartments. For her, alongside simplicity and quality, livability is the most important keyword that defines her work and designs. In this exceptional collaboration, Lili provides inspiration for all those who desire a premium-quality home.

Create a stunning home with our interior design plans in the style the best suits to you!

# Lili Pataki

My name is Lili Pataki, and I am one of those lucky people whose profession is both her passion and her hobby. I primarily work with residential properties. My trademarks are simplicity, timelessness, quality, and livability. My work is further distinguished by custom furniture design and related carpentry. Collaborating with Metrodom gave me the opportunity to let my creativity be limited only by the properties' features. My goal was to create a home that would help the group demonstrate that, in their residential complexes and properties, there is nothing standing in the way of creating sophisticated, high-quality homes through thoughtful and well-planned design.
